

DESIGNS

SOLAR BURST

\$20

INTERSTELLAR

COLLISION

SKYLIGHT (GLOW DISC)

OCEANIC

A single colour dye or a basic halo effect are only \$10

Some colours can be interchangeable

Submit brand new, clean, white discs for best results.

DISCLAIMER

While it is rare for a disc's stamp to rub off, we cannot guarantee the stamp's integrity won't be affected.

Caution: We have come across slight dimpling in the flight plate of newer runs of MVP Glow plastic.

Recommended Plastics: Innova Star, Discmania S-Line, MVP Neutron, Discraft ESP, Infinite S-Blend, Latitude 64 Gold, Dynamic Discs Fuzion, Westside Discs Tournament, Kastaplast K1, etc.

Transparent plastics (Champion, Proton, Z) are doable, but results will vary.

Recycled and base plastics will not be accepted as they will not hold dye.

When you're ready to turn your disc into a legendary piece of artistry, email us at
